- Automatic PIR Sensor (1m Max.)
- 8 x LED's
- On/Off/Auto Functions
- Adjustable Angled Lighting Banks
- Requires 3 x AA Batteries (Not Included)

IMPORTANT SAFEGUARDS AND PRECAUTIONS

SAVE THESE INSTRUCTIONS

When using electrical appliances in general, basic safety precautions should always be observed, including the following;

- Read all Instructions carefully.

DO NOT

Do not use rechargeable batteries.

DO NOT

Do not mix old and new batteries, different types of batteries, alkaline or rechargeable batteries with different capacity together.

- Always turn the unit off, when not in use. Leaving it on will shorten the life of the batteries.
- If you plan not to use the unit for a length of time, remove the batteries. Old batteries can leak and cause corrosion, damaging the unit.
- The use of long life Alkaline batteries is recommended.
- DON'T throw the battery in fire or dispose of in household waste.
- DON'T short-circuit the supply terminals of the batteries.

DO NOT

Do not look directly into the light, this may cause temporary or even permanent blindness.

DO NOT

Do not submerge in water. This product is only splash proof, and not water resistant.

LOCATION OF CONTROLS

A – Automatic PIR Sensor

Automatically senses movement within a 1m range, which immediately activates the light.

B – 8 x LED's

This product uses 8 Super Bright LED's to light up your cupboards and wardrobes effectively and efficiently.

C – On/Off/Auto Switch

Use the Auto feature to activate the PIR sensor. The LED's will now only operate for periods of 10 seconds when the PIR detects movement within a 1m range.

OPERATION

1 INSERT 3 x AA Batteries (Not Included), observing the **CORRECT POLARITY**.

2 MOUNT the unit where desired, using the **SELF ADHESIVE PAD** supplied.

3 SWITCH the On/Off/Auto switch to '**ON**' to activate the LED's to a constant operation

4 SWITCH the On/Off/Auto switch to '**AUTO**' to activate the PIR sensor. The LED's will now only operate for periods of 10 seconds when the PIR detects movement within a 1m range.

5 SWITCH the On/Off/Auto switch to '**OFF**' when the product is not in use.

Note: The Auto function will only operate in darkness.

WEEE/ENVIRONMENTAL PROTECTION

■ DISPOSAL OF ELECTRICAL AND ELECTRONIC EQUIPMENT

Do not dispose of this product with household waste. For the proper treatment, recovery and recycling please take this product to the appropriate waste collection point. If you are unsure where this may be, please contact your local authority. Improper disposal may be harmful to the environment.

■ PRODUCT END OF LIFE AND BATTERY DISPOSAL

The battery contains substances that may pollute the environment. At end of life for the product, always remove the battery and separate before you discard the product at your local waste collection point. Both battery and product should be disposed separately.

If you have trouble removing the battery, then you should contact a qualified technician or authorised service centre.

Contact your local authority for details and locations of official waste collection points. Do not dispose of batteries or product with normal household waste.
