# IMPORTANT SAFEGUARDS AND PRECAUTIONS

---

## SAVE THESE INSTRUCTIONS

- Read all instructions carefully
- For Household Use only. Not intended for commercial use.
- Only for use indoors.

### DO NOT

Do not use outside or in damp conditions.

- Before plugging into mains socket, check whether supply line voltage and current rating are in compliance with the rated electrical parameters shown on the rating label.
- Keep away from hot surfaces, such as gas or electric hobs and ovens etc

### DO NOT

Do not use for any purposes other than the appliances intended use.

- This appliance is not intended to be operated by means of an external timer or separate remote control system.
- To prevent damage to the mains cord, do not let it pass over sharp corners, edges or hot surfaces.
- If the supply cord is damaged, do not use. Check before each use!
- If the supply cord is damaged, it must be replaced by a special cord or assembly available from the manufacturer or its service agent.

### DO NOT

Do not use if any part of this appliance is damaged in any way.

- Always unplug when not in use.
- To prevent against the risk of electric shock, do not submerge any part of this appliance in water, unless advised in this manual.
- This appliance should only be used on a flat surface.

---

## IMPORTANT SAFEGUARDS AND PRECAUTIONS

---

- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
- Children shall not play with this appliance.
- Cleaning and user maintenance shall not be made by children without supervision.

- Always disconnect the appliance from the supply if it is left unattended and before assembling, disassembling or cleaning.
- Ensure correct assembly of all parts before use.

 **DO NOT**

Do not operate in the presence of flammable fumes or mix flammable materials.

 **DO NOT**

Do not allow children to use this appliance without supervision.

---

## LOCATION OF CONTROLS

---

### **A – Motor Unit**

The Motor Unit is what operates the product. Requires 220-240v~50Hz Mains Outlet.

### **B – Juice Jug**

This collects the Juice during operation ready for pouring into a glass via the built in Spout.

### **D – Juicing Cone**

This splits in two to reveal small or large juicing cones depending on the size of the fruit.

### **E – Lid**

Keep the unit covered when not in use to avoid dust entering the product.

### **C – Filter**

The filter is used to collect any unwanted fleshy pieces of fruit, leaving juice nice and smooth.

---

## ASSEMBLY

---

**1** PLACE the Motor Unit on to a **FLAT, STABLE** surface.

**2** PLACE the Juice Jug onto the base with the spindle inserted through the central hole. **TWIST** the Juice Jug clockwise until it **CLICKS SECURELY** into place.

**3** POSITION the filter on top of the Juice Jug opening. This will sit nicely in the opening.

**4** DECIDE on which Juicing Cone you will need to use (small or large depending on size of fruit) by **PULLING** the Large Juicing Cone **AWAY** from the Small Juicing Cone.

**5** TAKE the Juicing Cone and **SLOT** it onto the Hexagonal shape of the spindle. **PUSH DOWN** until it **CLICKS SECURELY** into place.

**6** POSITION the lid on top of the Juicing Cone. The lid must be removed before use.

# OPERATION

**1** **PLUG** the mains cord into a suitable 220-240v~50Hz mains power supply.

**2** **PREPARE** fruit by **WASHING** it and **CUTTING** in half.

**3** **SELECT** the correct sized cone dependant on the size of the fruit. Small cone = Limes, Lemons, Satsuma's etc. Large Cone = Grapefruits, Oranges etc.

**4** Use one hand to **HOLD** the base of the juicer and use the other hand to **PRESS** the fruit **FIRMLY** onto the cone.

**5** The Motor will operate automatically. The motor will change direction on each operation.

**6** Use the handle to **PICK** the unit up and **POUR** juice into a glass via the Spout.

## **CAUTION**

Do not use continuously for more than 15 seconds. Pause for 15 seconds before re-using. This is to avoid the motor from burning out.

---

# CLEANING AND CARE

---

## ■ MAINTENANCE

This appliance has been designed to operate over a long period of time with a minimum of maintenance. Continuous satisfactory operation depends upon proper care and regular cleaning.

### **WARNING**

Before performing any maintenance or cleaning of this appliance, disconnect the appliance from the electrical supply.

## ■ CLEANING

- 1 DISASSEMBLE** the unit by following the assembly instructions in **REVERSE** order.
- 2 CLEAN** the components **INDIVIDUALLY** using warm, soapy water.
- 3 DRY** each component thoroughly **BEFORE** reassembly.

### **DO NOT**

Do Not submerge the Motor Unit in a body of water or under running water.

### **DO NOT**

Do Not put any part of this product into a dishwasher.

---

## WEEE/ENVIROMENTAL PROTECTION

---

### ■ DISPOSAL OF ELECTRICAL AND ELECTRONIC EQUIPMENT

Do not dispose of this product with household waste. For the proper treatment, recovery and recycling please take this product to the appropriate waste collection point. If you are unsure where this may be, please contact your local authority. Improper disposal may be harmful to the environment.

---

## UK PLUG REWIRING

---

Your appliance operates on 220-240V~50Hz AC Mains and comes fitted with a 3-pin BSI Approved plug, so that it is ready for use by simply plugging into AC Mains. Should you need to change or refit a plug, proceed as follows: -

### ■ IMPORTANT:

The wires in the mains lead are coloured in accordance with the following code:

BLUE: NEUTRAL (N)  
BROWN: LIVE (L)

As the colours of the wires in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows:

The BLUE wire must be connected to the terminal which is marked with the letter "N" or coloured BLACK.

The BROWN wire must be connected to the terminal which is marked with the letter "L" or coloured RED.

### ■ DO NOT CONNECT EITHER LIVE (L) OR NEUTRAL (N) WIRE TO THE EARTH TERMINAL OF A 3-PIN PLUG

Always ensure that the Mains Cord is located into the Plug through the Cord Guard or Cable Clamp, and that the Cord Guard screws are tightened to clamp the Cord (outer sheath and inner coloured wires) in position in the Plug. Make sure the Plug top is also fitted securely.

The supply cord cannot be replaced. If the supply cord is damaged, the appliance should be scrapped.

This appliance must be protected by a 3 Amp fuse in a 13 Amp type (BS1363) plug. Should you need to replace the fuse, use only an ASTA approved BS1362 fuse.
