ASSEMBLING THE VACUUM CLEANER

Always remove the plug from the power socket before fitting or removing accessories!

■ FITTING THE FLEXIBLE TUBE

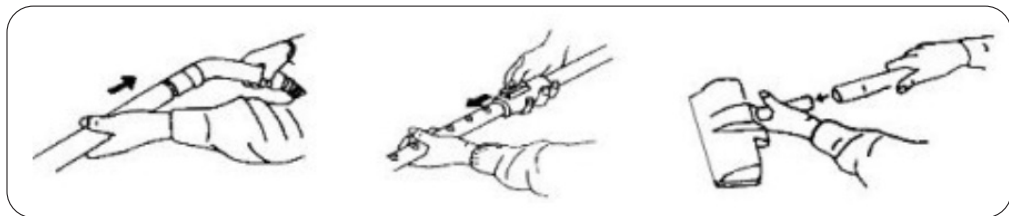

Insert the flexible tube into the air intake duct on the appliance, and press until it clicks into position.

Remove the plug from the power socket.

To release the flexible tube, press the button on the end of the tube firmly and pull from the air intake duct.

■ FITTING THE EXTENSION TUBES AND ACCESSORIES

■ REMOVING THE EXTENSION TUBES AND ACCESSORIES

To remove the accessories, pull firmly apart.

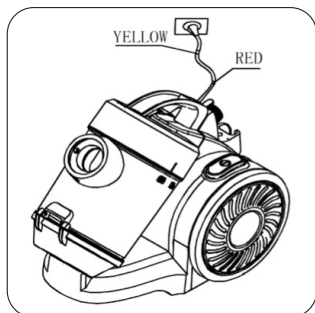

INSTRUCTION FOR USE

Before using the appliance, unwind length of cable and insert the plug into the power socket.

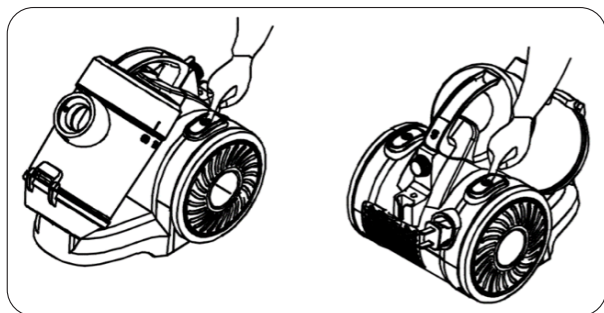

A YELLOW mark on the power cable shows the ideal cable length.

Do not extend the cable beyond the RED mark.

To rewind the power cable, press the rewind button witch on hand, and guide inside with the other hand to ensure that it does not whip, causing damage. If the power cable can't rewind completely. Please pull out the power cable slightly and press the re-winder button again. You can repeat the rewinding steps until the cable is rewind completely.

Press the ON/OFF button to switch the appliance on.

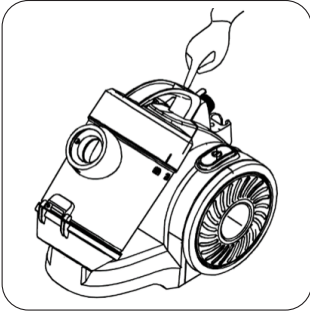

If an object becomes blocked in the pipe or in the brush, opening the Suction Release or turning off the appliance can sometimes release the blocked object.

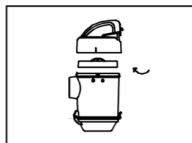

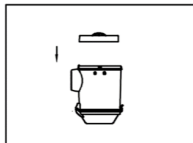

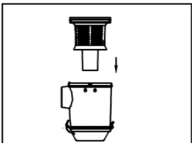

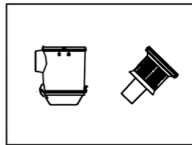

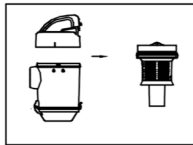

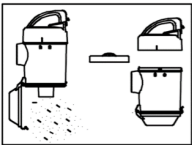

HOW TO CLEAN THE DUST CONTAINER

1. After removing the flexible tube, press the container release button on the handle. This will remove the dust container from the carriage.
2. You can empty the Dust Container by pushing the clip at the bottom of the container which releases the hinged bottom and empties the dust.
3. Close by simply closing the hinged bottom and the clip will automatically engage.

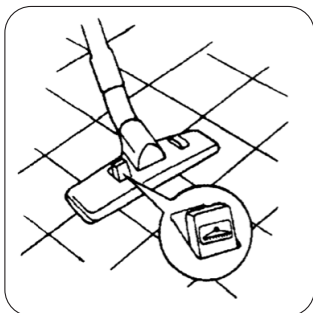

TO CLEAN THE FILTERS

1. Holding the Dust Container, twist the handle anticlockwise to remove the cover of the Dust Container.
2. This exposes the Sponge filter, which can be cleaned by brushing gently with a soft bristled brush and rinsed in warm water, then allowed to dry.
3. Pull out the second filter and cyclone segregator. Empty any debris and clean with a soft bristled brush.
4. Reassemble by inserting the cyclone segregator back into the Dust Container, place the Sponge filter on top (white surface visible) and then reattach the Cover with the release button opposing the Flexible Hose Connector and the twist clockwise to lock into place.
5. Reattach the Dust Container back onto the Carriage by clipping into place.

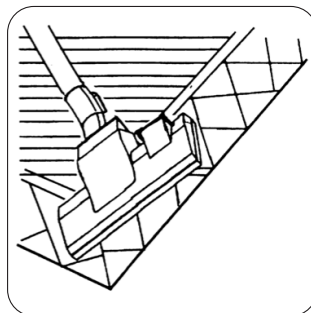

USING THE CLEANING ACCESSORIES

Pos. 1: bristles extended, for hard floors
Dual-position carpet/floor brush

Pos. 2: bristles retracted, for carpets

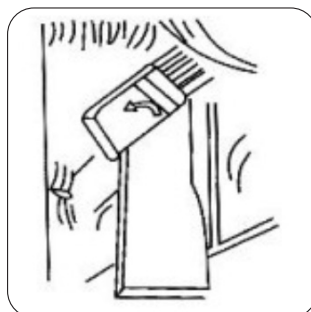

Narrow nozzle

For cleaning radiators, comers, edges Drawers etc.

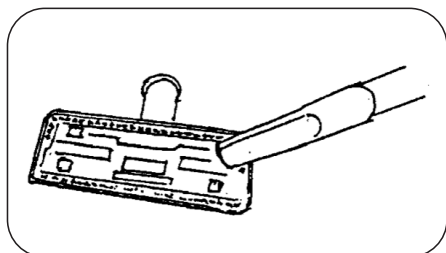

Small brush

WEEE/ENVIROMENTAL PROTECTION

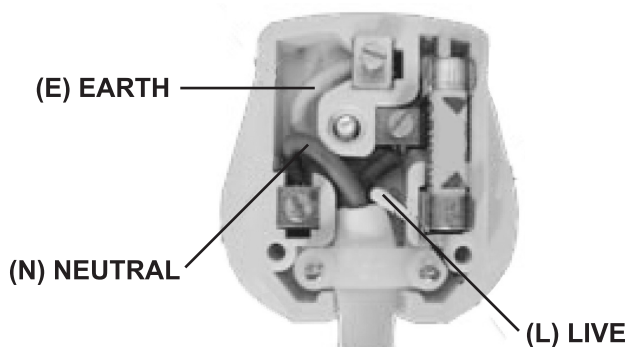

■ DISPOSAL OF ELECTRICAL AND ELECTRONIC EQUIPMENT

Do not dispose of this product with household waste. For the proper treatment, recovery and recycling please take this product to the appropriate waste collection point. If you are unsure where this may be, please contact your local authority. Improper disposal may be harmful to the environment.

FITTING A NEW UK PLUG

Your appliance operates on 220-240V~50Hz AC Mains and comes fitted with a 3-pin BSI Approved plug, so that it is ready for use for the UK or Eire market. If for any reason you need to fit a new plug, the flexible mains lead must be connected as shown below: -

■ IMPORTANT:

The wires in the mains lead are coloured in accordance with the following code:

BLUE:	NEUTRAL (N)
BROWN:	LIVE (L)
GREEN AND YELLOW:	EARTH (E)

As the colours of the wires in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows:

The BLUE wire must be connected to the terminal which is marked with the letter "N" or coloured BLACK.
The BROWN wire must be connected to the terminal which is marked with the letter "L" or coloured RED.
The GREEN AND YELLOW wire must be connected to the terminal which is marked with the letter "E", the symbol  or coloured GREEN.

■ DO NOT CONNECT EITHER WIRE 'L' OR 'N' TO THE EARTH TERMINAL OF A 3-PIN PLUG

Always ensure that the Mains Cord is located into the Plug through the Cord Guard or Cable Clamp, and that the Cord Guard screws are tightened to clamp the Cord (outer sheath and inner coloured wires) in position in the Plug. Make sure the Plug top is also fitted securely.

The supply cord cannot be replaced. If the supply cord is damaged, the appliance should be scrapped.

This appliance must be protected by a 13 Amp fuse in a 13 Amp type (BS1363) plug. Should you need to replace the fuse, use only an ASTA approved BS1362 fuse.
