IMPORTANT SAFEGUARDS AND PRECAUTIONS

SAVE THESE INSTRUCTIONS
• Read all instructions carefully
• For Household Use only.
• Only for use indoors.

🚫 DO NOT
Do not use outside or in damp conditions.

www.lloytronhelpdesk.com

• Keep away from hot surfaces, such as gas or electric hobs and ovens etc.

⊘ DO NOT
Do not use for any purposes other than the appliances intended use.

⊘ DO NOT
Do not use if any part of this appliance is damaged in any way.

• To prevent against the risk of electric shock, do not submerge any part of this appliance in water, unless advised in this manual.
• This appliance should only be used on a flat surface.

⚠ • To prevent possible hearing damage, do not listen at high volume levels for long periods.

• This appliance is not intended for use by persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance, by a person responsible for their safety.
• Children should be supervised to ensure they do not play with this appliance.
• Cleaning and user maintenance shall not be made by children.
• Never let children push anything into holes or slots in the cabinet or casing – this could result in an electric shock.
• Before plugging into mains socket, check whether supply line voltage and current rating are in compliance with the rated electrical parameters shown on the rating label.
• To prevent damage to the mains cord, do not let it pass over sharp corners, edges or hot surfaces.
• If the supply cord is damaged, do not use. Check before each use!
• if the supply cord is damaged, it must be replaced by a special cord or assembly available from the manufacturer or its service agent.
• Always unplug when not in use.

⊘ DO NOT
Do not use rechargeable batteries in this appliance.

⊘ DO NOT
Do not mix old and new batteries, different types of batteries, alkaline or rechargeable batteries with different capacity together – they may leak.

• Always turn the unit off, when not in use. Leaving it on will shorten the life of the batteries.
• If you plan not to use the unit for a length of time, remove the batteries. Old batteries can leak and cause corrosion, damaging the unit.
• Should you find the sensitivity or quality of sound deteriorating, replace all old batteries with new ones as soon as possible.
• The use of long life alkaline batteries is recommended.
• DON'T throw the battery in fire or dispose of in household waste. Consult your local authority in the correct way to dispose of unwanted batteries.
• DON'T short-circuit the supply terminals of the batteries.
• Always check the correct polarity when inserting batteries. Incorrect polarity can damage this unit.

FITTING A NEW UK PLUG

(N) NEUTRAL

(L) LIVE

Your appliance operates on 220-240V~50Hz AC Mains and comes fitted with a 3-pin BSI Approved plug, so that it is ready for use for the UK or Eire market. If for any reason you need to fit a new plug, the flexible mains lead must be connected as shown below: -

■ **IMPORTANT:**
The wires in the mains lead are coloured in accordance with the following code:
BLUE: NEUTRAL (N)
BROWN: LIVE (L)

As the colours of the wires in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows:

The BLUE wire must be connected to the terminal which is marked with the letter "N" or coloured BLACK.
The BROWN wire must be connected to the terminal which is marked with the letter "L" or coloured RED.

■ **DO NOT CONNECT EITHER WIRE 'L' OR 'N' TO THE EARTH TERMINAL OF A 3-PIN PLUG**

Always ensure that the Mains Cord is located into the Plug through the Cord Guard or Cable Clamp, and that the Cord Guard screws are tightened to clamp the Cord (outer sheath and inner coloured wires) in position in the Plug. Make sure the Plug top is also fitted securely.

The supply cord cannot be replaced. If the supply cord is damaged, the appliance should be scrapped.

> This appliance must be protected by a 3 Amp fuse in a 13 Amp type (BS1363) plug. Should you need to replace the fuse, use only an ASTA approved BS1362 fuse.

CLEANING AND CARE

■ **MAINTENANCE**

This Alarm Clock Radio has been designed to operate over a long period of time with a minimum of maintenance. Continuous satisfactory operation depends upon proper care and regular cleaning.

■ **CLEANING**

The exterior surface of the appliance should be wiped with a clean dry cloth only.

⊘ DO NOT
Do not use abrasive cleaners, solvents or polish on any part of the appliance.

WEEE/ENVIROMENTAL PROTECTION

■ **PRODUCT END OF LIFE AND BATTERY DISPOSAL**

The battery contains substances that may pollute the environment. At end of life for the product, always remove the battery and separate before you discard the product at your local waste collection point. Both battery and product should be disposed separately.

If you have trouble removing the battery, then you should contact a qualified technician or authorised service centre.

Contact your local authority for details and locations of official waste collection points. Do not dispose of batteries or product with normal household waste.
